Notes on Pricelist

Teak: Indonesian teak has the reputation of being the best teak in the world. For this reason, teak is more expensive than many less versatile or lower-demand timbers. We recommend teak for outdoor use or moist conditions such as bathrooms and kitchens (mahogany is unsuitable in these instances). In some cases we may recommend an item or a range in a particular timber. This is based on our experience and expert knowledge of timbers. Indicated by a "T" at the end of the code in the pricelist.

Mahogany: Mahogany is a member of the hardwood family, however its properties make it unsuitable for outdoor use or use in moist conditions. For this reason there are some items and ranges that we do not recommend in mahogany. Mahogany is a more prolific timber and readily available, offering a lower price option. Indicated by a "M" at the end of the code in the pricelist.

Colour Stain: All our products are available in a choice of colour stains. Teak timber is available in light, medium or dark, and it has a base yellow undertone. Mahogany timber is available in light, tea brown, red brown, medium, and dark and has a natural redness to its base colouring. Photos on website are indicative of style only, and are available to order in any colour stain. Colour matching can be tricky, and we recommend ordering a matching suite if you have tastes that require a close colour match.

Order Time: Please contact us for availability. We do sell our floor stock, but due to the size of our range we don't carry every item in stock. Should your preferred item be out of stock, a customer order is a great option. This takes approximately 14-16 weeks for delivery. A customer order gives you the power to choose your options: timber type, stain colour, handles, and make modifications to suit your needs.

Custom Design: Don't see the exact items you want? As we have our own factory, we are able to offer a custom design service to suit your requirements. Please contact us for further information.
